

Technical Theatre

A career continuing Education program in Technical Theatre offers instruction in the design and construction of scenery, special effects and lighting. Other areas explored are sound, props, stage management and costumes. The Technical Theatre pathway is for students who may have a desire to pursue a career in the entertainment technology field that includes theater, film, video, communications, and other areas that require a person to develop, design and implement creative solutions to complex problems.

Technical Theatre is two periods and earns three credits each year.

Students can take any Advanced Placement or Honors classes while taking this program!
