ABOUT THE A.A.D. SHOWCASE

Each year the Advanced Acting/Directing class presents a showcase during 4th quarter. This project is entirely driven by the students in the class. They began with discussions about what kind of experience they wanted to get out of their work and what goals they wanted to set for themselves. From there, the group reviewed different scripts until they arrived an option that best suited their process. Finally, the director held auditions within the class, and they began a fast-paced rehearsal process to get the show ready.

We hope you enjoy this year's results, and we are grateful for your support tonight!
